TECHNICAL DATA SHEET

Name: CUC Series - UNIVERSAL CONCENTRATES
Code: CUC Serie
Identification: CONCENTRATED PIGMENT PASTES
Revision: Rev.2 - 11/2026

Features

Universal concentrates for use on wood or woody materials with thinning based on water or non-ethanol solvents. Available in various colour tones.

Technical Specifications

The technical specifications are supplied on request, according to colour.

Use

The concentrated CUC colouring dyes are very versatile, can be mixed together and thinned with solvent or water to offer a multitude of colour combinations. These concentrated colouring dyes offer the possibility of rehabilitating various shades, within a batch of wood or woody material, making them the same shade.
·Good tinting can be achieved with tint medium ISI0001 or alcohol.
·The pores of oak and ash can be obtained with tint medium ISS0001, either by spray gun or rag-cloth.
·With water, good tinting is obtained by application with spray gun, sponge, or immersion.
The use of these concentrated colourings is recommended for interiors applications where light fastness is excellent.

Application methods

Dipping	☐	Spraying	☑	Roller	☑	Brush	☑
Cloth	☑	Spatula	☐	Flow-coating	☐		

Application

Indicative mixture of CUC with the different mediums	
STAINS	CUC
Water-based stain	10%
Spray applied stain	10%
Rag-cloth stain	10%
Alcohol-based stain	10%

Storage and packaging

Keep it tightly sealed in its original container in a cool environment (between - 5°C and + 30°C) that is not subject to abrupt temperature excursions.
Standard pack size is 1 Kg. For other specific requirements a feasibility evaluation will be made.

Safety precautions

The product is intended for professional use only, refer to the Safety Data Sheet.

MOD. 10 - 26
The data shown refer to laboratory tests; in practical applications they may vary significantly depending on the application conditions. The user must in any case verify the suitability of the product for the intended use and assumes all responsibility arising from its use.
